

# **Milton Keynes Preparatory School**

**Class 6**

**Curriculum Information**

**Summer Term  
2022**

## **Maths**

- Understand counting in groups of 2, 5 and 10 and use this to solve word problems (early stages of multiplication and division)
- Understand how to find half of a shape, group of objects or quantity
- Identify straight and turning movements; begin to use the vocabulary 'left', 'right', 'clockwise' and 'anti-clockwise'
- Recognise place value within 100; including counting, comparing, ordering and number bonds
- Recognise coins, count small totals and give change
- Identify the order of a day and tell the time to o'clock and half past on an analogue clock, recognising the different sized hands

## **English**

- Understand alphabetical order
- Begin to use simple dictionaries
- Recognise the purpose of the features in a non-fiction text (such as the contents page and index)
- Identify the features of a non-chronological report (e.g. text, captions, diagrams, photos, headings)
- Identify and use adjectives to describe fantasy settings
- Look at examples of descriptive poetry and discuss views
- Read with developing pace, fluency and expression, taking account of punctuation in a text

## **Themes**

### **Plants and Growth**

#### **Science**

- Understand what plants need to grow well
- Observe plants growing in a range of conditions and draw conclusions from their observations
- Identify and name the parts of a plant and tree
- Identify and name some common plants and trees in the UK

#### **Geography**

- Begin to use map skills to identify areas of woodland and forests on maps of the UK
- Begin to use specific geographical vocabulary when looking at maps (forest, coast, lake, river, etc.)

### **Holidays**

#### **Science**

- Study different types of weather in contrasting geographical locations
- Identify the types of clothing best suited for different types of holidays
- Know how to keep safe and protected in extreme temperatures, including understanding sun safety

#### **Geography**

- Identify different holiday destinations on a world map
- Begin to understand that different areas of the world have different types of weather based on their location
- Discuss the best way to travel from the UK to different destinations
